ELITE
SERIES FROM HP

WIN BIG WITH THE BEST HP COMMERCIAL PC LINEUP. EVER.
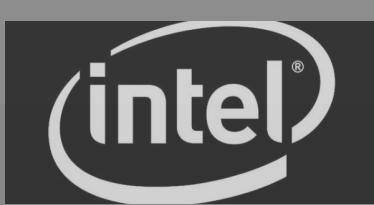

ZUNESIS

When HP, Intel, and Microsoft work together, everybody wins. The Elite series from HP, powered by Intel and running on Windows 10, gives business users the mobility and style they need while also allowing IT to securely manage growing digital diversity and personal preferences.

BUSINESS CHALLENGE:

62% of today's users work from more than one location.

- In today's anytime, anywhere business world, users need greater mobility than ever before.
- While allowing for greater productivity and efficiency, mobility exposes users to intrusion and other security threats.
- IT has to find a way to meet the needs of mobile workers while protecting them with stringent security.

Better Together: *3-way excellence amplifies advantage*

	hp	intel	Microsoft
